

VOLUNTEER BUILDING CAMBODIA

Newsletter
Edition 6
May 2015

This month, we returned to House #25 to build Toilet #13! A big thank you to the Maughan family in Adelaide who funded this build and Jay from Ireland for helping us get it done!

It was then back to Chi Krenng with Jay to put on the external windows we didn't have time to do for House #22.

We prepared all the wood for House #29 with Alana and raised the frame with our group from Turkmenistan (look it up, it's a real place!!).

Then we knocked House #28 up in just 4 days with help from Alana, Jay, Megan, Marj, Vin, Fabian and Jackie!

Look out, June! here we come!!

Alana also helped us prepare all the wood for House #30, which we then completed with our volunteer, Steve, and another big group from China (Peninsula Outdoor School) in just 2 days!! Whooooo hooooooo!

HAPPY BIRTHDAY

Another VBC birthday this month and another big thank you to our friends at The Little Red Fox Espresso for letting us crash their cafe for an early morning shin-dig before work!

Orkuhn ch'raan (thank you very much)

Speaking of... This month, the Foxy team came up with a great idea on how to separate recyclables so that collectors don't have to dig through the trash in order to make money. Introducing the Kandal Village Recycling Point. We were all too happy to assist the team with this project, making and donating the now rice bag-lined box. In the future, we will provide these bins for anyone who is interested, proceeds going to support our projects. We've already had our first order!

= Meet the team

Hi peeps, my name is Det and I joined the VBC team in February 2015 (and married my beautiful wife soon after - what an awesome month)!! I studied Physics at university for 3 years, but was unfortunately unable to finish my course. If I continued, it would have meant my younger brother and sister could not finish high school, so I dropped out and got a job at the airport to support their education. I love being able to help my people with VBC and have earned myself the title of Mr Drive-Around as I like taking the scenic routes when I drive the volunteer truck. In the future, I want to follow in my father's footsteps and be a cow and pig farmer!
