

# VOLUNTEER BUILDING CAMBODIA

Newsletter  
Edition 24  
November 2016

Christmas is almost upon us!

So we have had our ~~little elves~~ amazing workers (Dominique, Jason, Les, Russ) making Christmas trees in our ~~little workshop~~ big warehouse! A great idea thought up by the lovely Dominique. We have already started selling them to local businesses and we will be at the Christmas fair at Rosy's Guesthouse early December to sell some more! All money raised goes towards starting up and running our Community Centre (VBCCC).

We have also started making recycling bins! You may remember many moons ago that we made one which was installed at The Little Red Fox Espresso (in the hip Kandal Village). The aim was to create a collection point of sorts so that adults and children who go out collecting bottles and cardboard to exchange for a little bit of money do not have to rifle through bins full of unsafe, unsanitary waste. Well, they are back and we have sold 3 more already! Both of these little projects are using the offcuts from our house builds - so we can make the most of the wood we already use [whilst we are still using it] and make some money for VBCCC!

If you haven't followed our new page on Facebook, then now is the time! Things have already started to happen and English lessons will commence early December! Whooo!

**100**

We finally hit the big **100!!!**  
 A big thank you to Marie Bell & Alexis Southern for sponsoring this build and our second Journeys of the Spirit crew - Carla, Alex, Chiara, Hannah and Jayden - Georgia, Les, John, Sam, Geoff, Kyle, Dominique, Russ, Marj and Sheryl for carrying out this memorable build! A big thank you also to our beloved friend and amazingly talented photographer, Sam Walker, for documenting this milestone for us!

You can check out;
